Annual System Inspections

45 POINT INSPECTION TT \$200.00 FW \$250.00 MH \$300.00

Comprehensive & detailed safety inspection of the following areas:

- Check electrical system
- Check generator system
- Check plumbing system
- Check LP (Gas) system
- Check all appliance systems
- Exterior/Interior inspection

ELECTRICAL INSPECTION \$100.00

- 12 volt system
- All exterior/interior lights
- Check 110-Volt outlets
- Converter operation and output
- Shore cord and circuit breakers
- Generator operation and output

PLUMBING SYSTEM INSPECTION \$100.00

Recommended annually to help prevent water system failures.

- Check Water pump operation
- Check all faucets
- Check holding tanks (*where accessible*)
- Check fresh water fill
- Perform waterline pressure test
- Check dump valves, black & gray
- Check toilet operation

APPLIANCE INSPECTION \$150.00

RV manufacture recommends these inspections to be performed annually.

- Refrigerator inspection
- Water Heater inspection
- Air Conditioner inspection
- Furnace inspection
- Range/Oven inspection

LP (GAS) INSPECTION \$100.00

Recommended annually to help ensure safety during operations.

- Inspect regulators and LP (Gas) tanks.
- Check all LP (Gas) detectors
- Conduct drop pressure test
- Complete a line pressure test
- Visual inspection of lines & appliance connections

UNDERCARRIAGE & LIGHTING INSPECTION \$150.00

- Check holding tanks and support straps
- Visual inspection of 5th wheel or trailer frame for stress cracks or damage (*where accessible*)
- Check bolts and king pin box for cracks or damage
- Inspect operation of break-a-way system
- Inspect and test operation of 7 way plug
- Inspect stop, tail and turn light operations
- Inspect clearance light operations

Appliance Service

AIR CONDITIONER SERVICE per unit \$100.00

Recommended annually to maximize the operating efficiency of the cooling system.

- Examine shroud for cracks and/or damage
- Check compressor voltage
- Check compressor amperage
- Remove & clean A/C filters
- Clean & unclog A/C roof drains
- Check air temperature drop across the evaporator coil
- Torque A/C assembly gasket

REFRIGERATOR SERVICE \$75.00 - \$100.00

Annual recommendation of maintenance to maximize efficiency or operations and longevity of life.

- Verify refrigerator operation in all modes and overall condition
- Clean and adjust burner, flue & orifice, check baffle
- Inspect roof vent and cover, checking for proper ventilation
- Inspect LPG supply line and leak test
- Remove nests, bugs, webs and seal areas as needed
- Check refrigerator for recalls and updates

FURNACE SERVICE..... \$150.00 - \$200.00

Recommended annually for operating safety & fuel efficiency

- Verify furnace operations and perform temperature test
- Clean pilot, burner, orifice, electrode & heat chamber
- Check motor & blower wheels for play and debris
- Inspect LPG supply and perform leak test
- Check thermostat condition, cycling unit off & on
- Reassemble furnace using new gasket, if needed
(Price Varies per Model)
- Check combustion chamber/casing, removing any nests, bugs, webs & debris
- Check furnace for any/all recalls & updates

WATER HEATER SERVICE \$100.00

Recommended annually for operating safety & fuel efficiency.

- Verify water heater operation in all modes & overall condition
- Clean pilot, igniter and burner assembly
- Check and adjust airflow & electrodes
- Drain water tank and flush to remove sediments
- Inspect anode rod and pop off valve conditions
- Perform water temperature test to verify t-stat conditions
- Remove nests, bugs, webs & debris, sealing areas as needed
- Check water heater for any/all recalls & updates
